DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed December 10, 2003, traversing the provisional obviousness-type double patenting rejection of claims 8-12 as being unpatentable over claims 8, 10 and 12 of copending Application No. 10/166,140 have been fully considered but they are not persuasive. Applicants argued that the instant claims, as now amended, require the inclusion of component (C) whereas the copending application does not require the inclusion of said component. The examiner respectfully disagrees. The language in claim 8 of copending Application No. 10/166,140 leaves the claim open to the addition of said component (C). Note of the use of the word "optionally" to indicate that said component could be included. Thus, the rejection of claims 8-12 and 15-20 is sustained.

Response to Amendment

2. The rejection of claims 1-4 under 35 U.S.C. § 102(b) is withdrawn in view of Applicants' amendment, filed December 10, 2003, canceling claims 1-7. Further, the statutory double patenting rejection of claims 2-7 is also withdrawn.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1621

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 8-20 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8-14 of U.S. Patent No. 6,699,948. Although the conflicting claims are not identical, they are not patentably distinct from each other because the requirement of component (C) is fulfilled by the optional language in the '948 patent. Thus, when the component (C) is included, the scope of claim 8 of 6,699,948 is identical to the scope of the instant claim 8.
